EXERCISE 6

NAME: JAI GANESH S ROLL NO: 240701199

App Layout & Colour Scheme Design using GIMP

AIM:

To design different app layouts and experiment with various color schemes, and to evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE

Step 1: Install GIMP

1. Download GIMP from the official website.
2. Install and launch the application.

Step 2: Create a New Project

1. Open GIMP.
2. Click **File → New**.
3. Set dimensions:
   - Width: 1080 px
   - Height: 1920 px
4. Click **OK**.

Step 3: Design Base Layout 1.

Select **Rectangle Select Tool**.

2. Divide the canvas into:

- Header
- Content Area
- Footer

3. Use **Bucket Fill Tool** to apply colours.

Step 4: Experiment with Colour Schemes

1. Duplicate the layout: ○

   Image → Duplicate

2. Modify colours using: ○

   Bucket Fill Tool ○

   colours → Colorize

3. Create multiple designs: ○

   Light theme ○

   Dark theme ○ Colourful

   theme

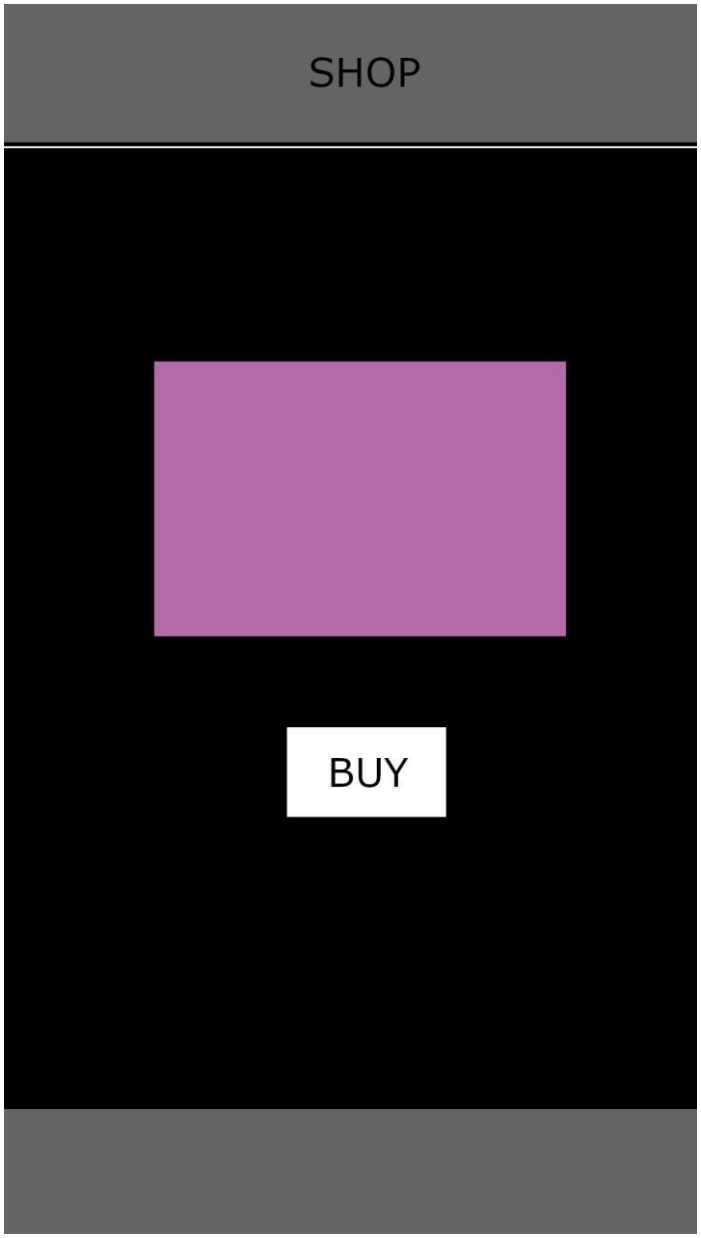
Step 7: Save and Export 1. Go

to **File → Export As**.

2. Save files as:

   - layout1.png

   - layout2.png



Step 8: Collect User Feedback

1. Create a feedback form (Google Forms).
2. Include questions:
    - Which layout is visually appealing?
    - Which design is easy to use?
3. Share designs with users.
4. Collect responses.
