EXERCISE 7A

NAME: JAI GANESH S ROLL NO: 240701199

Develop low-fidelity paper prototypes for a banking app and convert them into digital wireframes using Pencil Project

AIM:

To develop low-fidelity paper prototypes for a banking application and convert them into digital wireframes using Pencil Project.

PROCEDURE

Step 1: Create Low-Fidelity Paper Prototypes

1. Define Features

Identify main features of the banking app:

- **Login**
- **Account Dashboard**
- **Money Transfer**

2. Sketch Basic Layouts

- **Use paper and pencil**
- **Draw simple screens:** ○ **Login screen** ○ **Home/Dashboard** ○ **Transfer page**
- **Focus only on:** ○ **Buttons** ○ **Input fields** ○ **Navigation**

3. Iterate and Improve

- **Show sketches to users/friends**
- **Collect feedback**
- **Improve layout and usability**

Step 2: Convert to Digital Wireframes

1. Install Pencil Project

- **Download from official website**
- **Install and open the software**

2. Create New Document

- **Open Pencil Project**

- **Click File → New Document**

3. Add Screens (Pages)

- **Click "Add Page"**
- **Create pages like:** ○ **Login Page** ○ **Dashboard** ○ **Transfer Screen**

4. Arrange and Align

- **Match your paper prototype**
- **Keep spacing clean and consistent**
- **Align elements properly**

8. Export Wireframes • Go to File → Export

- **Save as:** ○ **PNG / PDF**
